Dear Mr. Kuck:

Our records indicate that you have not turned in all your water use reports for **2025**. Tri-Basin NRD rules and regulations **require** that annual water use reports be submitted on all active wells in the Republican basin watershed, new wells permitted after September 15, 2004, and wells using groundwater transfer permits and on all wells that received cost share funds to put on a flow meter. Your NRD needs this information to calculate the consumptive water use of these wells.

A list of missing water use reports for wells owned or operated by you is enclosed. **If our records are incorrect, or you no longer farm this property, you need to call our office as soon as possible.**

If you need assistance filling out water use reports, please contact our office. If the status of the well in question is not correct and should no longer require a meter or water use report, please contact our office to update the status with the state. If you did not use the well in question for the past crop year, please provide the information you can and write in the meter reading spaces "well not used". If you will not be able to complete your water use reports, you can sign an agreement stating your intention to comply with the rules and regulations of Tri-Basin.

All water use reports must be received in our office by January 30th, 2026. If your water use reports are not in our office by this date, you will be summoned for a hearing before Tri-Basin NRD's Board of Directors. If, as a result of this hearing, you are found to be out of compliance, you may be subject to a cease-and-desist order. This is a court order to shut off your irrigation wells. You may also be held liable for as much as half of the cost of the hearing.

PLEASE contact our office toll free (877) 995-6688 as soon as possible. We want to work with you to avoid legal action. **THANK YOU** for your cooperation.

Sincerely,

John Thorburn
